The study of literature is an integral component of the International Baccalaureate Middle Years Program. We at **Herbert A. Ammons Middle School** encourage our students to participate in the summer reading initiative. Research has shown that engaging in summer reading can positively impact what is known as "summer slide," a potential loss of academic achievement the during summer. Reading is as much an opportunity for self-discovery and exploration, as it is for intellectual growth. As we strive to develop our students into IB Learners, we hope that their interaction with texts provides valuable insights and a mindset of global awareness.

Students entering grades 6-8 will have a choice to read **ONE** of two books, fiction or nonfiction. Refer to the chart below for your respective grade level and complete the outlined assignment for your Language and Literature class. **Assignments will be collected at the start of the school year**. Additionally, language and literature teachers may choose to **assess** students on their summer reading.
